2015 | FINANCIAL COMPENSATION SURVEY

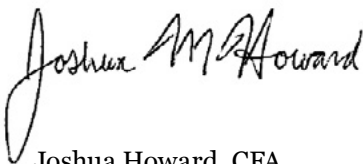

It has been said that three is a trend. If that is the case, then I am pleased to announce that the 2015 Financial Compensation Survey has made our annual research initiative an official trend. Now in its third year, the 2015 Financial Compensation Survey continues to provide unique insights for a wide-range of financial and investment professionals. With three years of survey results we now have a robust dataset, and can begin to turn this data into meaningful insight.

CFA Society Minnesota is committed to being a trusted resource for the finance industry, providing services, education and information that can assist both Charterholders and non-Charterholders alike. As part of this unwavering commitment, we are pleased to present the findings from this year's survey. I encourage you to review these findings on the following pages and make your own interpretations of the data. Be sure to examine all the information presented – such as ranges, sample sizes and other criteria – and do not rely on just one number (such as a median or maximum) when interpreting the results.

Whether you have completed the survey all three years, or if this is your first time participating, I personally want to thank you. Your willingness to take the time is what enables us to provide this indispensable resource for our entire industry. We truly appreciate your support of the Society.

Regards,

Joshua Howard, CFA

President, CFA Society Minnesota

Executive Summary

Now in its third year, the Financial Compensation Survey continues to evolve. New in 2015 is a more detailed breakdown of compensation, which better represents compensation structures common in our industry. This adjustment allows for a more granular level of data, while still providing year-on-year trends against the historic findings. Additionally, we are pleased to report that eight additional regional societies participated in compensation surveys this year. We look forward to sharing the aggregate findings in a future whitepaper.

Remaining true to the stated commitment to provide an accurate snapshot of the compensation levels for the entire financial and investment industry, the survey findings are presented to demonstrate compensation based on the most popular positions and other demographics.

The following pages report the impact of certain variables as well as comparisons to previous years reported data for your interpretation. We refer you to the Survey Methodology section of this paper when evaluating the data.

Data shows professionals who invest their time in attaining advanced degrees and CFA certification tend to have higher compensation levels than those who don't.

Median Total Compensation

● Non-Charterholder ● CFA Charterholder

Years of Experience

● <2 years	6%
● 2 to <5 years	18%
● 5 to <10 years	27%
● 10 to <20 years	31%
● 20 years or more	17%

Charterholder Status

● Charterholder	63%
● Candidate	24%
● None	13%

AUM of Firm

● <\$500 million	10%
● \$500 to <\$2 billion	14%
● \$2 to <\$10 billion	12%
● \$10 to <\$50 billion	15%
● \$50 to <\$100 billion	11%
● \$100 billion or more	25%
● Not applicable	14%

Likelihood of Looking for New Role in 2015

● Very Likely	16%
● Likely	20%
● Unlikely	40%
● Very Unlikely	24%

Education

● Some college but no degree	0.4%
● Associate degree	0.2%
● Bachelor degree	55.5%
● Graduate degree	43.2%
● Doctorate	0.7%

Fifteen Most Common Job Titles

● Buy-side Research Analyst (fixed income)	10%
● Portfolio Manager (equities)	8%
● Portfolio Manager (fixed income)	6%
● Consultant	5%
● Financial Advisor/Broker	5%
● Buy-side Research Analyst (equity)	5%
● Chief Investment Officer	5%
● Manager of Managers	5%
● Bank/Private Client Portfolio Manager	4%
● Accountant/Auditor	4%
● Buy-side Research Analyst (other)	4%
● Risk Manager	4%
● Private Client Professional (other)	3%
● Manager Research (alternatives)	3%
● Portfolio Manager (indexed/other)	3%

Organization Type

● Investment management firm	36%
● Investment bank, commercial bank, brokerage firm	23%
● Insurance company	8%
● Other	8%
● Consulting, accounting, law firm	6%

Average Ideal Compensation Structure for Selected Occupations

Total Compensation vs. Compensation Perception

	2014 Median Comp	% of Respondents who said they were undercompensated but actually were still above median
Less than 5 years	\$84,675	10.2%
5 to less than 10 years	\$126,480	9.8%
10 to less than 20 years	\$208,500	12.1%
20 years or more	\$323,250	7.7%

Fairly Compensated

● Yes 70.8%
● No 29.2%

Approximately 10% of respondents who feel they are under compensated are actually above median compensation.

Compensation Satisfaction vs. Likelihood of Looking for New Job

Individuals who don't feel they are fairly compensated are much more likely to be looking for a new job than their counterparts who believe they are fairly compensated.

Survey Methodology

Method

An online survey was deployed to known financial professionals in the region represented by CFA Society Minnesota. Email subscribers of CFA Society Minnesota and LinkedIn group members were specifically targeted. The survey was not limited to just these audiences. In addition, this survey was structured so all data gathered was anonymous, with no identifiable information requested.

Respondents

Respondents are financial and investment professionals, totaling 504 unique and completed responses.

Timing

The survey was active from April 15, 2015 – May 11, 2015.

Assumptions

The findings from this survey were derived from self-reported data. Because the survey uses sampling methodology and broadly defined positions, survey findings are not necessarily representative of the total population; rather, the survey is designed to provide general information about pay levels within the industry. Earning any degree or professional designation is no guarantee of employment or compensation.

About CFA Society Minnesota

CFA Society Minnesota is the premier professional organization for investment professionals to connect with Chartered Financial Analysts in the Twin Cities area and throughout the Upper Midwest five-state region. With members in five states and a wide variety of industries, CFA Society Minnesota strives to serve its broad membership through relevant educational programming, membership support services and opportunities for advancement such as networking events and discounts on educational materials.
